Skills

- Python (Variables, Data Types, Conditionals, Loops, Functions)
- SQL (SQL Server)
- HTML

- Microsoft Power BI (Power Query, DAX)
- Microsoft Excel (Pivot Tables, VLookup)
- Tableau

Personal Projects

PYTHON WEB SCRAPPING

Ongoing

- Developing a Python-based web scraping script to extract, transform, and load data from Amazon.com
- Learning the fundamentals of web scrapping packages such as Beautiful Soup to extract data from HTML

HTML PORTFOLIO WEBSITE

Sep 2023

- Developed a personal portfolio website using HTML, demonstrating proficiency in foundational web development skills
- Acquired fundamental knowledge of GitHub Pages to maintain a personal website showcasing various projects

COVID-19 SQL ANALYSIS

Sep 2023

- Utilised SQL to extract data from different tables from global COVID databases using JOIN, VIEW and Temp Tables
- Uncovered correlations between vaccination rates and COVID-19 mortality to be used for public health decisions

SQL DATA TRANSFORMATION

Aug 2023

- Transformed data in SQL using SUBSTRING, PARSENAME and CTE's which improved the reporting process
- Performed data cleaning and text analysis to successfully identify the key sales information for each housing property

PYTHON WEIGHT CONVERTER APPLICATION

Aug 2023

- Developed a user-friendly **Python-based** interface that efficiently converts between various units of weight
- Implemented error handling and validation to ensure data input accuracy for a more refined user experience

Relevant Work Experience

GRADUATE PROJECT MANAGER – Mace Group – Manchester, UK

Jun 2023 - Present

- Preparing weekly progress reports that are in line with KPIs, cost and programme using Excel Conditionals
- Ensuring technical standards are applied through critical examination of building design submissions and drawings
- Engaging in proactive client communication and crafting Excel trackers to meet and exceed client expectations

ROAD LOGISTICS GRADUATE - Kuehne + Nagel - Derby, UK

Sep 2022 - May 2023

- Analysed financial account data and produced monthly sales reports using Excel Pivot for performance insights
- Analysed transportation data and optimised routes contributing to a 5% reduction in CO2 emissions and fuel costs
- Innovatively devised and executed system tests ensuring data integrity from a domestic fleet management system

AEROSPACE ENGINEER - BAE Systems - Warton, UK

Jun 2018 - Apr 2019

- Developed a streamlined user interface for the testing team resulting in a 50% reduction in operational time
- Conducted in-depth analysis of aircraft data and crafted data-driven reports using Microsoft Excel visualisations
- Strategically redeveloped BAE's information database resulting in a 40% increase in employee satisfaction rate

Academic Background

MENG, BENG AERONAUTICAL & AEROSPACE ENGINEERING - University of Leeds

Sep 2015 - Sep 2020

Achieved a First Class Honours.

A LEVELS MATHS, PHYSICS, CHEMISTRY – Ashton Sixth Form College

Sep 2012 - Jun 2014
